Subject: Update  
First Article Inspection Software Integration – InspectionXpert OnDemand

As you may be aware, I wrote you recently regarding our focus on developing a more consistent and efficient first article inspection (FAI) process with our suppliers. My letter of August 23<sup>rd</sup> informed you of our support for the use of software that electronically “balloons” drawings, accounts for characteristics, and automatically populates the characteristics into an AS9102 FAI form. We have found that integrating ballooning software into the FAI process significantly improves productivity and data consistency. The purpose of this letter is to highlight another preferred application for your consideration.

InspectionXpert OnDemand is another preferred software product and recommended for use by Triumph’s global supply chain. Over the last several years, Triumph Group and many of our suppliers have utilized InspectionXpert software with a great deal of success.

Information on InspectionXpert functionality and the Triumph Group Supplier Offer can be found at:

<http://www.inspectionxpert.com/en-us/inspectionxpert/supplychainprograms/triumphgroup.aspx>

The price of InspectionXpert OnDemand offered through this program will reflect a special 20% discount to you as a Triumph Group supplier.

Please attend one of the following webinars to learn more about the product and its capabilities:

**Triumph Supplier InspectionXpert Software Presentations - 2 Sessions** (Click the link to sign up)

Date: Thursday, September 5, 2013

Time: 2:00 to 2:30 PM EDT

**Or**

Date: Thursday, September 19, 2013

Time: 11:30 AM to 12:00 PM EDT

[Click to Register](#)

Based on the interest received there may be a potential to schedule and arrange for workshops, strategically located to provide for additional information exchange.

We have found InspectionXpert OnDemand to be a powerful and effective tool to improve the quality and efficiency of your first articles. InspectionXpert is already integrated to pre-populate Net-Inspect if you have such requirements. Please take advantage of this offer as it ends on October 31, 2013.

For direct sales support contact [sales@inspectionxpert.com](mailto:sales@inspectionxpert.com) and be prepared to give them your Triumph Group supplier code for verification.

Regards,

Frank Mariot
